

ParaWatch Guide

In Solidarity Against the Enemy

Don't let the Paras take over! They are unnatural and need to be stopped.
Always report suspicious behaviour to the hotline.

1.

- Watch out for anyone who stumbles over ParaWatch slogans or doesn't know them by heart.
- They're either Paras or dirty Para Supporters.

2.

- Watch out for anyone who can't touch the anti-Para flags.
- They're Paras or dirty Para Supporters.

3.

- Be suspicious of people who are evasive about their past, their relatives, or how they accomplished something.

4.

- Be suspicious of people who seem to have accomplished something extraordinary. They may have done it through the aid of unnatural, unlawful powers.

5.

- Don't finger a Para before you're absolutely sure. Three strikes by accusing other Normals comes with an awfully heavy fine.

6.

- If you've already accused 2-3 Normals, and you're not 100% sure about a Para you want to finger, ask a fellow ParaWatch member to do it for you. Or try to get evidence.

7.

- Post as many ParaWatch posters as you can. The more posters there are, the more support you're showing your fellow natural humans, and the more uncomfortable you'll make any Paras.

8.

- Stay alert. Always be wary and suspicious.
- What's awful about Paras is how subversive they are. They can be someone you know.

9.

- Stay tuned to the ParaWatch station for reports on unregistered Para activity.

If you're concerned, report your concerns to your local ParaTrooper station, or call the hotline.

Possible signs of Paras:

Telekenisis

- They can move something without touching it.
- If they're really powerful, they can levitate their own body.

Pre-cogs

- They know something before it happens.
- If they're really powerful, they know when a big event will occur that will affect many people.

Telepaths

- They can read your mind, know what you're thinking.
- If they're really powerful, they can hear what you're thinking even when they're not in close contact with you, possibly across miles.

Teleporters

- They suddenly appear or disappear.
- If they're really powerful, they can teleport other people as well. Remember the school bus incident that started the riots.

Mediums

- They're able to talk to the dead. If you see someone talking to themselves, they may be a medium.
- If they're really powerful, they can see, hear, & even touch a spirit.

Post-cogs

- They can see or hear events after they've happened.
- If they're really powerful, they can see the entire sequence of a huge event

Empaths

- They can feel the emotions of a person, place, or object.
- If they're really powerful, they can know what happened in a particular place.

Psychoscopes

- They can pick up info from touching a person or object.
- If they're really powerful, they may be able to read your thoughts through touch.

Energy Healers

- They can heal a person through touch.
- If they're really powerful, they can heal over the distance, without contact.

As you can see, there are a lot of dangerous Paras out there, so stay on your guard!
